5 REGISTER FOR PLACEMENT TESTS

Prepare for and complete the Math Placement Test online.

This is a requirement before advisement. Failure to complete the correct Math Placement Test could impact your advisement. **You must take the Math Placement Test no later than 3 business days before Orientation.**

- **The Pre-Calculus Placement Test** covers Pre-Calculus and Trigonometry. If your major requires only **MATH 141**, you need to take this test.
- **The Algebra Placement Test** covers basic high school Algebra II. If your major requires only **MATH 122**, you need to take this test.
- If your major allows you to choose between **MATH 141** and **MATH 122** and you are undecided, we recommend you take the Algebra Placement Test first. Once the scores are loaded into the student record (2-3 business days,) take the Pre-Calculus Test.
- Uncertain which test to take? You may complete **both** tests!

Can I retake the Math Placement Test? Yes. You must wait at least 7 days before retaking the same Math Placement Test (Algebra or Pre-Calculus.) You can take the same version of the Math Placement Test, with different questions, up to 3 times. The most recent score is the one that will be reported in Self Service Carolina and will be available to your advisor.

Algebra Math Placement Test Score: _____

Pre-Calculus Math Placement Test Score: _____

Register online for the Foreign Language Placement Test and take online.

This is strongly recommended **before** advisement if you **do not** have prior foreign language credit. You will not be able to register for foreign language courses in the upcoming term if:

- If you do not have prior foreign language credit and you did not take the Foreign Language Placement Test; or
- If you did not submit the placement exemption form (if you seek enrollment in a language you have never previously studied or if it has been over five years since you last studied the language.)

Date of Foreign Language Placement Test: _____
